Mr. J. A. Simpson, Maysville, Ky. Dear Sir. We beg to acknowledge reccipt of your favor of the nineteenth, enclosing ad you you are using in the five days' "shut-down," which we think is a very good one. However, according to the rnling of a special committee, as shown in the Chicago Herald, January 19th, on page 3, rule 23, this order was not intended for yon. The ruling referred to reads as follows:

Manufacturers of Optical goods may operate that portion of their factories in which special orders for eye-glasses are made. Nothing in this order will permit of such manufacturers to operate their factories as a whole.

We might add that our Chicago office has secured a permit to remain open Monday for the reason that doing optical prescriptions is, in their judgment just as essential as filling any physician's prescription in a drug
